*European Suppliers Book* features:

- 68 offers from the most active representatives of the promotional market from 14 countries,
- a practical keyword search engine available in 6 languages, with an extensive index to help you quickly locate specific offers,
- a printed edition published annually each September,
- a practical compendium of knowledge for distributors,
- an electronic version of the catalog,
- a supplier database in an Excel format.

We are proud to provide you, for the 13th time, with this catalog containing up-to-date information and offers from 68 of the most active representatives of the advertising market from 14 countries. Thank you for your trust.

The GJC International Team

## Dear Suppliers,

we are pleased to present the 13th edition of the *European Suppliers Book*—a catalog of producers and importers of promotional products, reaching **5,000 companies**. This handy database of suppliers reaches **active distributors in 24 European countries** and has been trusted by thousands of companies for over a decade. In response to market needs, this year the catalog is also going to reach recipients in Ireland - with 50 copies - and a greater number of companies in France.

The industry publication is released annually in September in printed form, complemented by an online catalog distributed in September and February to a database of around **50,000 companies across Europe**. Thus, the *European Suppliers Book* is an excellent tool that allows you to easily reach specific customers with your offer. Its clear form and intuitive search engine enable distributors to quickly contact the supplier.

The catalog is created based on our long-standing presence in the industry and cooperation with the promotion and advertising sector. We trust that it will meet your expectations and believe that both the print and online versions will help you fully leverage your company's export potential and reach distributors throughout the European market.

Thank you for your trust and cooperation.
