LOCKERBOX locker vending machine is a universal system with an extremely wide range of configuration options. One module allows you to create up to 60 independent lockers. A wide array of compartment parametres, additional accessories and functions allow you to create a vending machine that can be used in any industry. It is perfectly suited for securing valuable tools, electronic devices, and even firearms.

All Temrex vending machines can be connected to form complex systems composed of up to 15 machines.

- Full user identification 
- Reduction of resource losses and misuse 
- Authorization based on user profile
