- compatible with the entire TEMREX range of machines
- one-year, extendable guarantee

CYCLEBOX returning machine is a device for a controlled returning of used items or items that can be reused after cleaning or refurbishment, e.g. work garment, blades. Its implementation ensures:

- > FULL CONTROL OVER THE CYCLE OF RESOURCES
- > EFFICIENT SEPARATION OF RECYCLABLES
- > ORDER AND TIDINESS IN THE WORKPLACE

PARAMETERS AND CONFIGURATIONS

	CYCLEBOX	CONTAINER SLOT	CONTAINER
Width (mm)	1033	690	570
Height (mm)	1860 / 1975 / 2010	1231	1000
Depth (mm)	853 / 928*	850	1033
Capacity (l)			240

* with handle

The complete system consists of a main device – a dispensing machine, and a receiving device – a slot machine. Any vending machine from the TEMREX range of vending machines can be used as the main device.

The system registers the moment of logging into a vending machine, while the camera installed above the opening slot allows for identification of the returned item.

CYCLEBOX machine fulfils all necessary safety standards and is CE certified.
