## Violetta

Type: bonnell  
Height: approx. 17 cm  
Cover: Royal

A double-sided mattress made with durable Bonnell springs and comfortable foam. A basic mattress designed for hotels, apartments, and guesthouses. It provides a comfortable sleep with a medium level of support. The selected materials ensure good air circulation, helping to maintain high sleep hygiene. The mattress is compatible with both flexible slatted frames and rigid bases. It is also an excellent choice as the main mattress for a continental bed.

## Bianca

Type: pocket with integrated visco topper  
Height: approx. 21 cm  
Cover: Royal

A basic hotel mattress with enhanced comfort and height. The elevated construction and elegant cover of the Bianca mattress make it the most frequently chosen model to complement a continental bed. Designed for hotels and apartments. The thick foam layer provides comfort and softness, while the combination with springs ensures durability. The open structure of the mattress interior guarantees good air circulation. Bianca is a mattress that offers healthy spinal support and high sleep hygiene.

## Firenze

Type: pocket  
Height: approx. 18 cm  
Cover: Casino

A classic pocket spring mattress providing a high level of relaxation for hotel guests. Designed for all types of hotels and apartments, especially those offering enhanced comfort. It is ideal for king-size beds and double beds as a single, large mattress. The pocket springs offer targeted support, adapting to the body's weight distribution. This means the mattress adjusts its level of support according to the user's body weight. It provides excellent body support, keeping the spine in a healthy position.

## Francesca

Type: pocket  
Height: approx. 22 cm  
Cover: Silver Protect

The Francesca mattress is characterized by high point elasticity, comfort, and stability. It provides medium-firm body support. This pocket-spring and foam mattress is designed for premium hotel rooms and apartments. An excellent choice for both single and double beds. The classic pocket spring core adapts perfectly to body contours, maintaining a healthy spinal alignment. Thanks to its thick polyurethane foam layer, it balances flexibility with stable support.

Base

## Adriano

Type: foam  
Height: approx. 20 cm  
Cover: Royal  
Replacement cover: Fabric group A

The Adriano continental bed features a high wooden-foam base, making it an ideal choice for upscale hotels and apartments. The base itself, without legs, is an impressive 20 cm high, allowing for the use of mattresses without height restrictions. This design enhances the overall comfort of the bed, especially when sitting down and getting up. A thick, triple layer of foam ensures a high level of comfort and significantly increases the bed's durability.

Cover with flame-retardant properties

## Royal and Royal BugShield

Composition of the cover: 70% polyester, 30% polypropylene

A soft, fluffy, skin-friendly material enhances the comfort of the mattress. Thanks to the thick layer of padding and precise quilting, it provides gentle enveloping for the body. Mattress covers made from materials coated with the BugShield layer offer better protection against insects and house dust mites.

Cover with flame-retardant properties

## Casino

Skład pokrowca: 70% poliester, 30% polipropylen

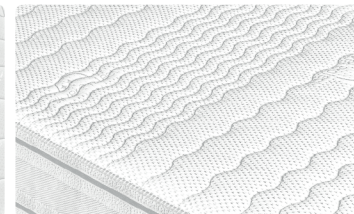

A fluffy, soft, and skin-friendly material. It is an excellent choice for luxury and boutique hotels, as well as those opting for classic, elegant solutions. The cover enhances the comfort of the mattress, providing gentle enveloping for the body through a thick layer of padding and dense quilting.

Cover with flame-retardant properties

## Silver Protect

Composition of the cover: polyester 100%

A high-quality fabric with hypoallergenic properties. The structure of the Classic cover has been enhanced with a silver-infused coating that prevents bacterial growth and provides hypoallergenic benefits. The addition of silver reduces static electricity, preventing the cover from attracting dust and extending its freshness.

Cover with flame-retardant properties

## Adaptive®

Composition of the cover: polyester 66%, lyocell 33%, elastane 1%

Adaptive® is a technology that transforms passive textiles into ones that dynamically respond to changes. Enhanced evaporation reduces humidity and creates a cooling effect, ensuring a dry sleeping environment. Adaptive® also positively affects the fabric's softness, improving sleep quality.

2 YEARS GUARANTEE

Our sofa is a 2-in-1 product. It combines a sofa ideal for a living room, guest room or hotel room and a full-size bed with mattress. The Leonardo sofa is perfect as an extra bed in a flat or hotel room. At the same time, the sofa functions as a lounge furniture for relaxing in a sitting position and as a bed. Inside the sofa there is a full-size foam mattress. The combination of a foam

mattress and a flexible sprung frame guarantees comfort and relaxation on the level of a traditional bed with a mattress. The Leonardo sofa saves valuable space while providing high levels of rest and sleep comfort. Innerspring mattress: the model chosen for the Leonardo sofa is a two-sided mattress with medium firmness. It is made of a full block of foam. The product is safe for

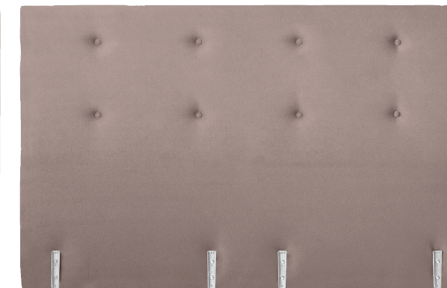

allergy sufferers. Height 11 cm - inlay, together with the cover approximately 12 cm. The mattress is made of HR high resilience foam with a density of 35 kg/m³ in a washable cover, which increases its hygienic properties.

Smooth headboard W12

## Standard

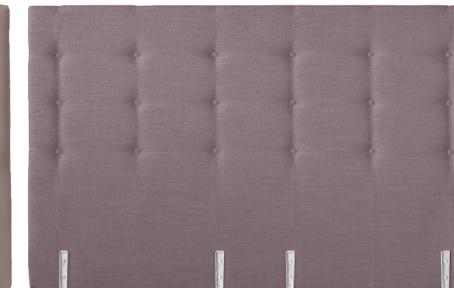

The smooth headboard allows for the use of patterned fabric, such as checks, stripes, or other interesting designs. This headboard fits both modern and classic interiors.

Button headboard W03

## Essential

This model works great in minimalist interiors. The buttoned headboard is a classic that will always stand the test of time. It fits perfectly in both modern and traditional interiors.

Button headboard with stitching W01

## Prestige

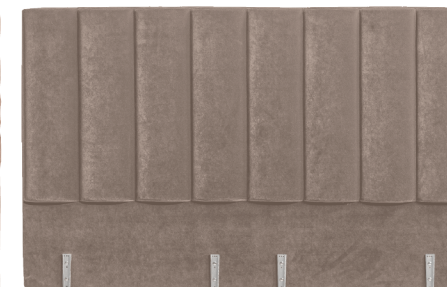

This model works great in minimalist interiors. The headboard with tufting and buttons is a classic that will always remain timeless. It fits perfectly in both modern and traditional interiors

Horizontal cylindrical roll headboard W05

## Horizontal

The roll pattern beautifully showcases fabrics and is a popular choice. It can be used as an integrated feature with the base or as a decorative element extending across the entire width of the wall behind the bed.

Vertical cylindrical roll headboard W07

## Vertical

The headboard with vertical rolls is a popular model that works great in low-ceiling rooms, visually expanding the space. It can be chosen in a standard height or as a decorative feature covering the entire wall up to the ceiling.

Square tufted headboard W13

## Square

The square tufted headboard is a popular choice for all types of interiors, from classic to modern and loft-style. It works perfectly as a headboard for single and combined beds.

Framed headboard W04

## Frame

The framed headboard is an alternative to a smooth headboard, allowing for the use of either solid or patterned fabric. It suits both modern and classic interiors.

Herringbone headboard W08

## Superior

The herringbone headboard is a perfect fit for classic interiors, apartments in elegant tenement houses, and hotels. Depending on the fabric, it can be adapted to classic, modern, retro, or boho styles.

Chesterfield headboard W06

## Royal

The most luxurious design available in the offer. The fluffy and soft headboard adds elegance to any interior. This model is perfect for prestigious hotels, boutique hotels, and apartments in a classic English style.
